Guideline for the IPCS student achievement award

Amended on May 29th 2018

Article 1: The IPCS student achievement award is granted to selected students who engage in research publications, activities, or contests in areas related to climate change and sustainability.

Article 2: This award recognizes IPCS students who exemplify excellence in the following categories:

(1) students who have a first-authored paper under review by an international journal in an IPCS-related field (SCI、SCIE、SSCI), with quality of the paper being “minor revision” or above,

(2) doctoral students who receive the first-, second-, or third-place award of a student presentation or poster contest at an international conference (equivalent awards at an international or domestic conference for master’s students),

(3) students who receive the first-, second-, or third-place award at any professional contest in an IPCS-related field, or

(4) students who participated and have significant contribution to IPCS-related activities.

Article 3: Students should submit an application to the IPCS Office in either January or June each year.

Article 4: Applicants must submit (1) an application form and (2) A proof of record.

Article 5: IPCS academic committee will review the application and eligibility to select award recipients.

Article 6: Recipients of this award shall not receive other grants from the College of Science, NTU for the same cause.

Article 7: This guideline was approved by the program committee and effective once it is announced.
